

Grain Handling Safety Coalition

Grain Handling Safety Coalition Train the Trainer Sessions

December 18, 2014 & December 19, 2014

Do you have a passion for safety? Are you a safety director or do you train others at a commercial facility, farm, or the community?

Two sessions of Train the Trainer cover a variety of topics associated with grain handling safety. Sessions include several hands-on activities designed to prepare participants to conduct training sessions on these topics in their local communities or workplaces.

Participants can choose to attend 1 day or both days of training.

Day 1 (Dec 18, 2014) - Safe Bin Entry Process & Confined Space (NEW)

Several training modules will be presented in this session including:

- Overview of Grain Handling & Storage Safety with a **NEW** LOTO training video.
- Hazards of Bin Entry (**revised**) – How to identify & correct hazards before entry.
- Bin Entry Process (**NEW**) – How to plan, train, & prepare before bin entry; correct use of a Bin Entry Permit or checklist. Features a **NEW** training video.
- Confined Space (**new & improved**) – How to appropriately identify & manage confined spaces in the grain handling environment.

Day 2 (Dec 19, 2014) - Lifeline Installation & Use (NEW)

Participants will learn the equipment and skills necessary to install & use a secured lifeline system, including anchor points, knots, basic rigging, and belaying techniques in this technical course. Participants are strongly encouraged to attend Day 1 training. ***It is recommended participants bring their own safety harness if they have one, as well as any lifeline “kit” or equipment they may have purchased.*** Participants should wear comfortable, older clothing as they may get soiled or snagged during activities.

Date: December 18 & 19, 2013
